Module 2 Capstone

Module 2 Capstone - TEnmo

- You get:
  - Readme.md – with full requirements
  - Database script
  - One solution, two projects (client and sever)
  - Client project with:
    - Working menus
    - Login / Register / Logout
  - Server project with
    - LoginController and working Login and Register endpoints
- You need to complete both the client and server sides based on the requirements in Readme.md
- There are *Mandatory* and *Optional* use cases
- Ready, Aim, Fire! (please do these in that order)

Capstone Teams

- Remember, this is pairs programming:
  - Let each team member "drive"
  - If you are stronger, take the opportunity to teach.
  - If you are weaker, take the opportunity to be hands-on

Team	Student	Room
0	Ahmad Doleh	EUCLID
0	Robin Blake	
1	Kameron Howes	GARAGE
1	Marissa Buss	
2	Amir Farhat	GOSLING
2	Jess Wilson-Woodrow	
3	Paul Vanden Broeck	HOPPER
3	Todd Zucker	
4	Brandon Oleksik	JOHNSON
4	Lucinda Verplanck	
5	Colin Leverette	LOVELACE
5	Timothy Becker	
6	Bill Michaels	ONTARIO
6	Clayton Cross	
7	Aklile Kebede	PARTICIPATE
7	Andrew Dorscheid	
7	Dejan Cancar
